Prosthetics and Orthotics at La Trobe University

La Trobe University is one of only three universities in the world offering a qualification in Prosthetics and Orthotics – the ***Bachelor of Applied Science and Master of Clinical Prosthetics and Orthotics***. This course offers practical experience, and is the only course of its kind in the Asia-Pacific region with institutions in Scotland and Sweden offering a similar program.

Prosthetics and orthotics are clinical disciplines that deal with artificial limbs (protheses) for people with amputations and supportive devices (orthoses) for people with musculoskeletal weakness or neurological disorders. Students study anatomy, physiology, biomechanics, prosthetic and orthotic prescription, and design and fabrication. They also develop strong

practical skills in research methodology, clinical assessment and the application of prosthetic and orthotic techniques. Clinical placements make up a very important part of the program. VCE requirements are Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.
